

Website requests at UCL

www.ucl.ac.uk/requests

Benefits

- High domain authority
- Free!
- Drupal is easy to use and relatively flexible
- Pull in content from other websites through tagging
- ISD Digital Presence technical support
- Faculty/department best practice support

Website requests at UCL

www.ucl.ac.uk/requests

Limitations

- Must use UCL Indigo format in Drupal - no exceptions
- Normally no longer giving out top level domain names for research projects so must live in departmental framework
 - > BUT you can request a vanity URL from your department

Website requests at UCL

Alternatives

- Set up your own...
- But you will have a low domain authority and no UCL support
